

HR EXCELLENCE IN RESEARCH

07.07.2025

## **INFORMATION ON THE RESULTS OF THE COMPETITION**

(sent over to HR)

REF NO OF THE COMPETITION	„Origins and development of peripheral form of academic capitalism” agreement no: UMO-2022/46/E/HS6/00021
FACULTY	Faculty of Philosophy
POST	<b>Post-doc</b> (Competition_Post-doc_SONATA_BIS_WFilozoficzny)

In response to the competition announcement for the postdoctoral position, three applications were submitted. All applications were assessed by the selection committee based on six pre-defined evaluation criteria. Only one application met the threshold for progression to the second stage and was shortlisted for an interview. During the interview stage, four additional pre-defined criteria were used to assess the candidate's suitability for the position, particularly in relation to the objectives of Work Package 5. While the candidate demonstrated a strong publication record and relevant research experience, the committee concluded — unanimously — that the candidate did not meet the expectations regarding theoretical orientation, conceptual clarity, and structured understanding of the core research problems. As none of the candidates fulfilled all the required criteria for successful integration into the project's research agenda, the selection committee decided not to offer the position to any applicant.

(Chair of the selection committee)
